

Initiatives

When do I start an initiative?
How do I go from idea to form?
What does the world around my concept/plan look like? Where to start? How do I involve people? How do I achieve continuity? How do I find a place? Can I get money?

These are the questions most people have asked themselves when work on an initiative. With this workshop, we try to help you on your way and to overcome most hurdles to come with a sustainable plan.

There are many different manifestations of initiatives. Some have an ideal goal, some have a revenue model. Some are set up by individuals, some by groups, some are very short-lived and some have been around for over 40 years. Some have grown into institutions & some prefer to stay on the margins.

It is equally important to join an initiative. You probably join because you share the same beliefs or you like what they have organized. Whatever it is that makes you want to join, you can use the topics in this tool to see where you could help out the initiative as a committed member.
